

SPECIALTY CORRUGATED PRODUCTS

"S-PADS"

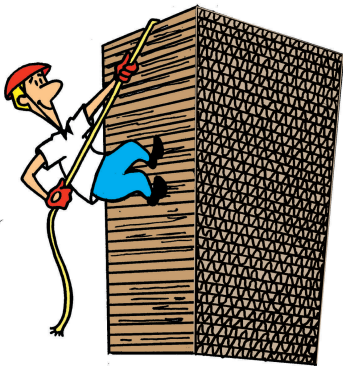

IPSCO would like to profile a product line of which we have had much success. The items are Corrugated U-Channels, Angles, Corners, Sheets & Built up Pads. They can be designed & custom built to fit your customers needs. **S-Pads** are used to effectively protect furniture, wood & metal cabinets, specialty windows, counters, machinery & many other items. Michaelman coated, tissue & foam lined are available where additional protection is required. These specialty corrugated items are environmentally friendly and cost effective.
